

Spare Parts

Better opt straight for the original

As a manufacturing business in the plastics industry, you cannot afford to endanger the productivity of your process chain. We recommend you rely on the original straight away: To ensure the long-term performance, precision and reliability of your hot runner control technology, we recommend using only genuine spare parts to preserve the tightly set tolerances in the control of your hot runners.

The main features in brief:

- ✓ Maximum quality preservation
- ✓ Preservation of the tightly set tolerances in the control
- ✓ Assuring productivity in your process chain

Solid - State - Relay

Type:
SSR 25 A

Item No.:
910-01-25

Manufacturer's designation:
CWD2425

Switching behaviour:
Zero-voltage switch

Nominal current to resistive load:
25 A

Operating voltage range::
24 - 280 VACeff

Peak reverse voltage:
600 Vss

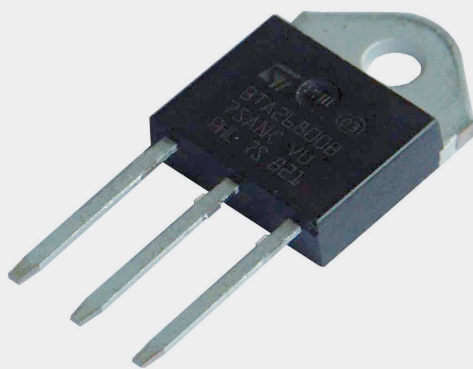

Control voltage:
3...32 VDC

Operating status display:
LED

Temperature range (operation):
-20...+70 °C

Temperature range (storage):
-40...+100 °C

Triac

Type:
Triac

Item No.:
924-20-10

Manufacturer's designation:
BTA 26 - 800

Nominal current to resistive load:
25A

Operating voltage range:
42 - 530 VACeff

Peak reverse voltage:
800 Vss

Frequency range:
45...65 Hz

Temperature range (operation):
-20...+70 °C

Temperature range (storage):
-40...+100 °C

Ultra rapid fuse

Safety fuse with ultra-rapid tripping characteristics – to protect SSR and Triacs.

Type	FF 10 A	FF 16 A	FF 20 A	FF 25 A	FF 30 A
Item no.	910-04-10	910-04-16	910-05-20	910-05-25	910-05-30
D / mm	6,3	6,3	10	10	10
L / mm	32	32	38	38	38

Fuse carriers

Fuse carriers

for JETmulti
910-51-30

Cap 5 x 20 mm

for JETmicro, JETmulti
910-51-31

Cap 6,3 x 32 mm

for JETmicro, JETmulti
910-51-32

Cap 6,3 x 32 mm,

for fitron, fitron TP etc.
910-51-42

Device base

Device base

for JETmicro, JETmulti, fitron, fitron TP etc.
Item no. 920-12-04
